**5. TESTING TECHNIQUES** ..... 11

# 1. INTRODUCTION

**Test Object:** Cinema City website

**Testing type:** Manual functional testing + exploratory testing

**Testing approach:** Black-box testing

- The website was tested from an end-user perspective, without access to its internal structure.

**Goal:** To verify main user flows and identify differences between expected and actual behavior.

# 2. THREE TEST CASES

**Test Case ID:** TC-001

**Title:** Verify that a user can select a movie screening and start the booking process.

**Preconditions:**

- The Cinema City website is accessible.
- The selected cinema has available movie screenings.
- The selected movie has at least one available screening.
- User is not authenticated.

**Test Data:**

- Cinema A: Cluj Iulius Mall
- Movie M: Strainul
- Date: 11/10/2026
- Time slot: 21:40

**Steps + expected results:**

| STEPS | EXPECTED RESULTS |
|---|---|
| 1. Open the Cinema City Website. | The Cinema City home page is displayed. |
| 2. Select Cinema A. | Cinema A becomes the selected cinema. |

| | |
|---|---|
| 3. Select the desired date. | The desired date is selected and the movie list is updated. |
| 4. Open Movie M. | The page for Movie M is displayed. |
| 5. Select an available time slot. | Booking process starts. |
| 6. Choose the preferred method: sign in or buy as guest. Click buy as guest. | Booking page opens. |
| 7. Check booking details. | The correct movie, cinema, date and time are displayed. |

**Actual Result:**
- The booking process starts successfully and the correct movie, cinema, date and time are displayed.

**Status:** PASS

**Test Case ID:** TC-002

**Title:** Verify that changing the screening date updates the booking with the newly selected date and time.

**Preconditions:**
- The Cinema City website is accessible.
- A cinema is selected.
- The selected movie has available screenings on at least two different dates.
- The booking process is available for the selected movie.
- User is authenticated

**Test Data:**
- Cinema A: Cluj Iulius Mall
- Movie M: Strainul
- Initial Date: 11/10/2026
- New Date: 12/10/2026
- New time slot: 19.10

**Steps + expected results:**

| STEPS | EXPECTED RESULTS |
|---|---|
| 1. Open the Cinema City Website. | The Cinema City homepage is displayed. |
| 2. Select the desired cinema. | The selected cinema becomes active. |
| 3. Select the desired movie. | The selected movie page is displayed. |
| 4. Select screening date. | The selected date is active. |
| 5. Pick screening time. | Time is selected and the reservation page opens. |
| 6. Use the Back Button to return to the | The user returns to the movie page. |

| | |
|---|---|
| movie page. | |
| 7. Select a different screening date. | The screening times update for the newly selected date. |
| 8. Select an available screening time for the date. | Booking page opens. |
| 9. Check the booking details. | The booking now displays the newly selected date and screening time. |

**Actual Result:**

- The booking process starts successfully and the correct cinema and newly selected date and time are displayed correctly.

**Status:** PASS

**Test Case ID:** TC-003

**Title:** Verify that a user can successfully create a new account using valid registration data.

**Preconditions:**

- The Cinema City website is accessible.
- The user is not logged in.
- The email address used for registration is not already associated with an existing account.

**Test Data:**

- First name: Miruna
- Last Name: Vidican
- email: mirunavidican26@gmail.com
- Password: Test2005

**Steps + expected results:**

| STEPS | EXPECTED RESULTS |
|---|---|
| 1. Open the Cinema City website. | The Cinema City homepage is displayed. |
| 2. Navigate to the account registration page. | The registration form is displayed |
| 3. Enter valid data in all required personal information fields. | The entered data is accepted without validation errors. |
| 4. Enter a valid email address. | The email address is accepted without validation errors. |
| 5. Enter a password that respects the displayed password requirements. | The password is accepted. |
| 6. Accept the required Terms and Conditions. | The Terms and Conditions selection is accepted and registration can proceed. |

| | |
|---|---|
| 7. Click Create Account Button. | The registration request is successfully processed. |
| 8. Observe the result. | The account is successfully created. |

**Actual Result:**
- The registration data is accepted and the account is successfully created.

**Status:** PASS

# 3. FAILED TEST CASES

**Test Case ID:** TC-004

**Title:** Verify that the selected date is preserved when changing the cinema.

**Preconditions:**
- The Cinema City website is accessible.
- Cinema A and Cinema B are available for selection.
- Movie M is available at both Cinema A and Cinema B.
- Movie M has screenings at both cinemas.

**Test Data:**
- Cinema A: Bucuresti AFI Cotroceni
- Cinema B: Bucuresti Mega Mall
- Date: tomorrow
- Movie M: 3 zile in septembrie

**Steps:**
1. Open the Cinema City Website.
2. Select Cinema A.
3. Select tomorrow as the desired screening date.
4. Open Movie.
5. Change the selected cinema from Cinema A to Cinema B.
6. Observe the programme date displayed after changing the cinema.

**Expected Results:**
- Cinema B is selected and the previously selected date (tomorrow) remains selected, since Movie M is also available at Cinema B on that date.

**Actual Result:**
- Cinema B is selected, but the date is automatically reset from tomorrow to today.

**Status:** FAIL

**Test Case ID:** TC-005

**Title:** Verify that combining movie format and movie title filters displays only matching results.

**Preconditions:**
- The Cinema City website is accessible.
- The movie filter functionality is available.
- The movie Atlasul Universului is available in 2D but not in Infinity Vision.

**Test Data:**
- Movie: Atlasul Unviersului
- Screening Format: Infinity Vision

**Steps:**
1. Open the Cinema City website.
2. Go to movie programme page.
3. In “Choose screening” select Infinity Vision.
4. In“Choose a Movie” select Atlasul Universului.
5. Observe the selected filters and displayed results.

**Expected Results:**
- Both filters remain selected and a no results message should be displayed because the desired movie is not available in Infinity Vision.

**Actual Result:**
- The Infinity Vision filter is automatically removed and the movie is displayed in 2D.

**Status:** FAIL

**Test Case ID:** TC-006

**Title:** Verify that the selected language is preserved when navigating to IMAX Documentaries.

**Preconditions:**
- The Cinema City website is accessible.
- Romanian is selected as the website language.

**Test Data:**
- Selected Language: Romanian
- Menu Option: IMAX Documentaries (IMAX Documentare)

**Steps:**
1. Open Cinema City Website.
2. Select Romanian as the website language.
3. Select “IMAX Documentare” from navigation menu.
4. Observe the language selected on the destination page.

**Expected Results:**
- The IMAX Documentaries page opens in the same language, Romanian in this case.

**Actual Result:**

- The correct page opens, but the selected language automatically changes from Romanian to English.

**Status:** FAIL

# 4. UP TO 3 BUG REPORTS

**Bug ID:** B-001

**Title:** Selected date resets to today after changing cinema.

**Environment:**

- Website: Cinema City
- Device: Desktop
- Browser: Google Chrome
- Browser Version: 154.0.8037.98
- Operating System: Windows 11

**Preconditions:**

- The Cinema City website is accessible.
- Cinema A and Cinema B are available for selection.
- Movie M is available at both Cinema A and Cinema B on the selected future date.
- Movie M has screenings at both cinemas.

**Steps to Reproduce:**

1. Open the Cinema City website.
2. Select Cinema: Bucuresti Afi Cotroceni.
3. Select tomorrow as the desired screening date.
4. Open Movie: 3 zile in septembrie.
5. Change the selected cinema from Bucuresti AFI Cotroceni to Bucuresti Mega Mall.
6. Observe the selected programme date.

**Expected Result:**

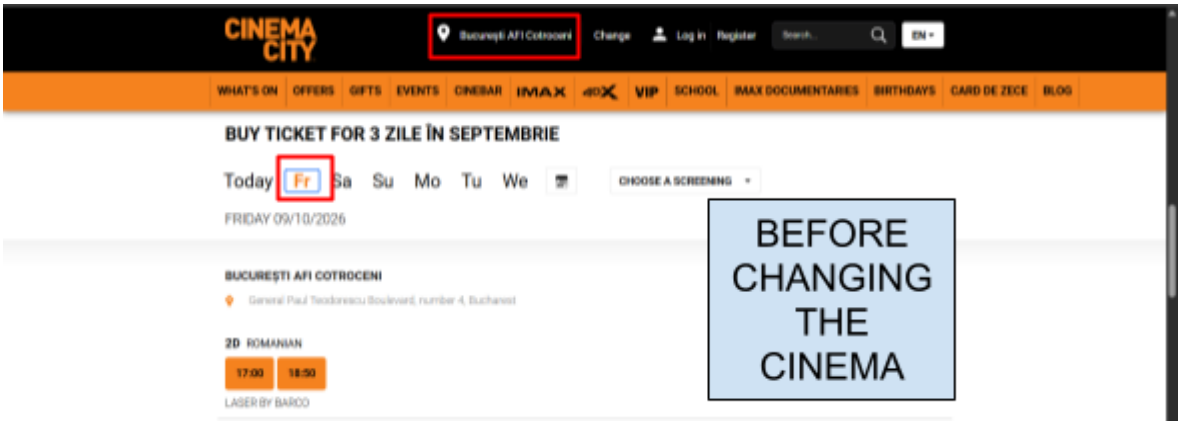

- After changing the cinema, the previously selected programme date (tomorrow) should remain selected when Movie M is also available at Cinema B on that date.

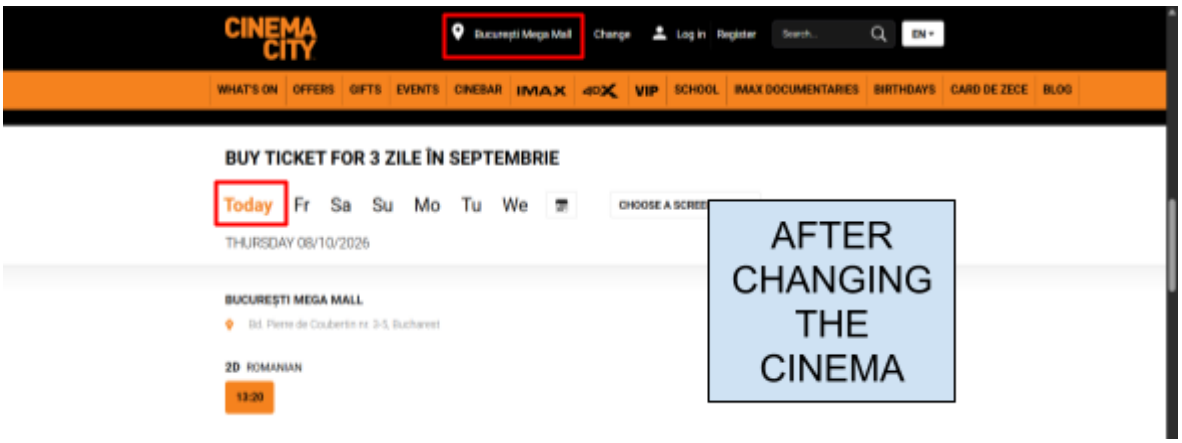

**Actual Result:**

- After changing the cinema, the programme date is automatically reset from tomorrow to today.

**Impact:** medium

**Evidence:**

**Related test case:** TC-004

**Bug ID:** B-002

**Title:** Infinity Vision is automatically removed when selecting a movie unavailable in that format.

**Environment:**

- Website: Cinema City
- Device: Desktop
- Browser: Google Chrome
- Browser Version: 154.0.8037.98
- Operating System: Windows 11

**Preconditions:**

- The Cinema City website is accessible.
- The movie filtering functionality is available.
- Atlasul Universului is available in 2D but not in Infinity Vision.

**Steps to Reproduce:**

1. Open Cinema City website.
2. Go to movie programme page.
3. In “Choose screening”, select Infinity Vision.
4. In“Choose a Movie”, select Atlasul Universului.
5. Observe the selected filters and displayed results.

**Expected Result:**

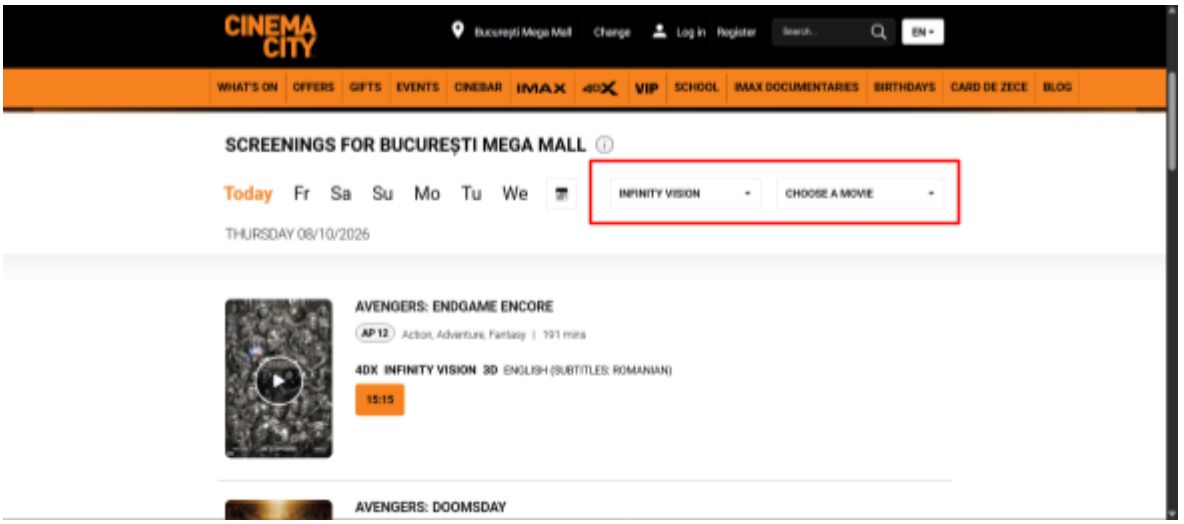

- Both selected filters should remain active, and the application should display a no results message because Atlasul Universului is not available in Infinity Vision.

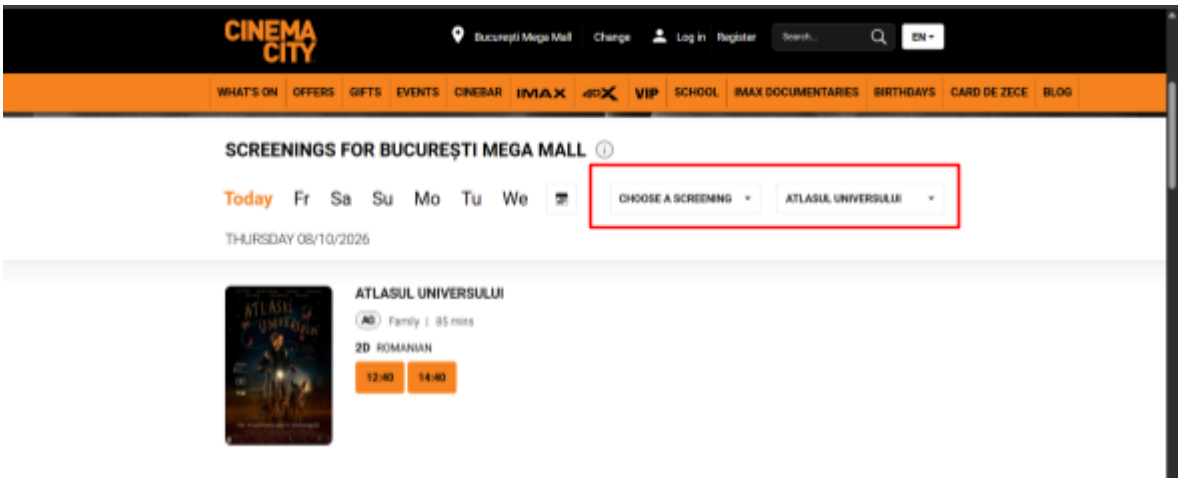

**Actual Result:**

- The Infinity Vision filter is automatically removed, and Atlasul Universului is displayed in 2D, even though the user did not remove the format filter.

**Impact:** medium

**Evidence:**

**Additional Observations:** When selecting the movie first, the “Choose a Screenin” filter correctly displays only the characteristics available for that movie.

**Related test case:** TC-005

---

**Bug ID:** B-003

**Title:** Selected language changes from Romanian to English when navigating to IMAX Documentaries.

**Environment:**

- Website: Cinema City
- Device: Desktop
- Browser: Google Chrome
- Browser Version: 154.0.8037.98
- Operating System: Windows 11

**Preconditions:**

- The Cinema City website is accessible.

- Romanian language is selected on the website.

**Steps to Reproduce:**

1. Open Cinema City website.
2. Select Romanian as the website language.
3. Click “IMAX Documentare” from navigation menu.
4. Observe the selected language on the destination page.

**Expected Result:**

- The IMAX Documentaries page should open displaying content in Romanian.

**Actual Result:**

- The IMAX Documentaries page opens successfully, but the website language automatically switches to English without any action from the user.

**Impact:** low

**Evidence:**

**Related test case:** TC-006

# 5. TESTING TECHNIQUES

- USE-CASE TESTING
    - A black box testing techniques that verifies how users interact with the application to achieve specific goals.
    - I tested Cinema City user scenarios, such as choosing a cinema, selecting a movie, screening date and time and starting the booking process.

- CHECKLIST BASED TESING
    - An experience based technique that uses a predefined checklist to guide testing and ensure important functionalities are covered.
    - I created a checklist of approximately 40 checks covering Cinema City main functionalities such as Programme, Booking, Login, Registration, Navigation.
